IP INTERCOM

CASTEL SIP

SIP HOSTING

ASSISTANCE

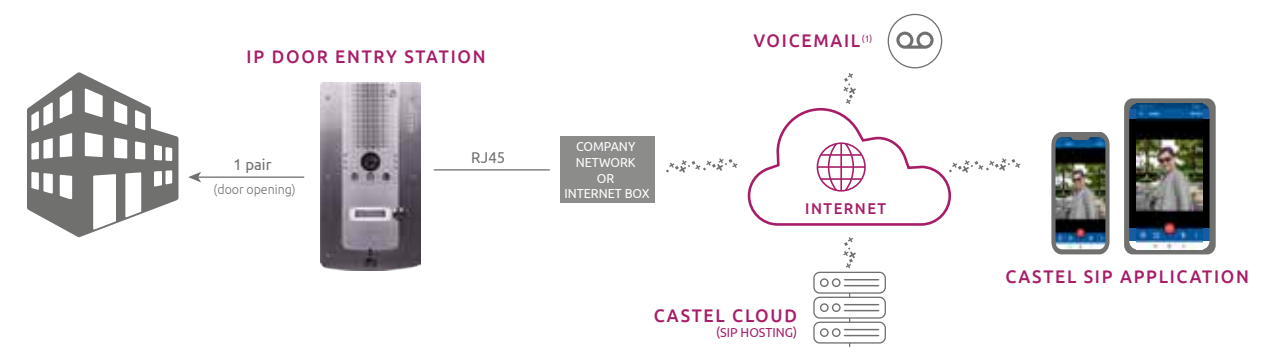

BEST GUARANTY TO REACH THE CORRESPONDENT

- > Push Notification mechanism allows the user to be notified when a call is coming in even if the application is not active
- > In case of a rejected call, non-reception or device off, it is possible to leave a voice mail message on a answering machine which comes directly to the contacted person mail box (audio file attached)

AN ANSWER FOR EVERY NEED

- > Various intercom models are available, all DDA compliant
- > Available for iPhone®, iPad® or Android® devices
- > Through Wi-Fi and 3G/4G

SCHEMATIC

⁽¹⁾ In case of a rejected call, non-reception or device off, it is possible to leave a voice mail message on a answering machine which comes directly to the contacted person mail box (audio file attached).
